Generation change at Germany's most prestigious customised lorry semi-trailers with tilt mechanisms completed

Bad Marienberg. One of the largest and most successful independent manufacturers for customized bodies as well as trailers and semitrailers with tilting functions, the company Kempf in Bad Marienberg has completed its generation change in February 2019 with the help of InterFinanz.

The rejuvenated management, headed by Daniel Dreßler and Manuel Kempf, as well as the founding sons Heinz and Norbert Kempf, continue to be significantly involved in the company. The handover of the staff was carried out with the help of the Frankfurt-based equity investor Steadfast Capital and will continue to be built on solid foundations for the future.

While Mr. Heinz Kempf is transferring to the advisory board with the transaction, Mr. Norbert Kempf initially remains in the executive board.

The further expansion of the company is thus ensured in the third generation of the traditional Westerwald company.

InterFinanz has organized an international sales process on behalf of the sellers and has accompanied the sales negotiations as an exclusive M&A adviser.
