

# XinPoint Holding acquired Bernd Lindecke Werkzeugbau GmbH

June 24<sup>th</sup> 2018

InterFinanz, "IF", advised the shareholder of Bernd Lindecke Werkzeugbau GmbH on the sale of 100% of the shares to Xin Point Ltd. Holding, a Chinese automotive supplier producing plastic electroplated products.

Xin Point Group believes that the Acquisition is expected to facilitate its plans to enhance its capabilities and technical know-hows for developing new products for its customers. In addition, the acquisition will be beneficial to expand business relationships with German Premium OEMs.

Bernd Lindecke Werkzeugbau GmbH produces tools for injection moulding products in the automotive industry. Despite its small size the company is well-known and highly demanded by Premium OEMs all over the world due to its market leading tools for automotive speaker covers. Bernd Lindecke Werkzeugbau GmbH established strong relationships to all German OEMs, especially to Daimler for which the company serves as development supplier.

InterFinanz initiated an international sales process - due to the small size, unattractive sector, and the high dependency on the former shareholder the process quickly focused on small number of interested parties.
